

## Understanding Place: GIS and Mapping Across the Curriculum

---

By Diana Stuart Sinton

ESRI Press. Paperback. Book Condition: New. Paperback. 282 pages. Dimensions: 9.0in. x 7.0in. x 0.8in. This collection of case studies describes how experienced instructors have used GIS within the traditions of a classical undergraduate education, spanning subjects as varied as the natural sciences, social sciences, arts, and humanities. These stories offer creative ways for teachers to help students analyze, manage, and visualize information by describing how instructors have integrated mapping software into their syllabi, pursued the learning goals of their discipline, and strived to create a realistic learning environment in which students practice inquiry in their fields. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.

### Reviews

*Totally among the best ebook I have ever go through. It can be rally exciting throgh looking at period. Its been printed in an extremely straightforward way which is just soon after i finished reading this pdf by which actually transformed me, change the way i believe.*

-- **Mr. Mervin Walsh**

*Just no phrases to describe. It typically does not price an excessive amount of. It is extremely difficult to leave it before concluding, once you begin to read the book.*

-- **Felton Hessel**
