Overall this text is a very interesting read with significant applicability to both advisors and faculty. The creative advisor will have no problem synthesizing Materna's ideas and theories of brain-compatible learning strategies into daily interactions with students and faculty. uJennifer Varney, Hesser College This outstanding book combines neuroscience and education to create an energetic and practical guide to the adult brain. You ll finish it feeling as if you ve just been entertained and enlightened. uSheryl Feinstein, Augustana College Use brain-based learning techniques for powerful staff development! Brain-compatible learning promotes the brain's natural capacity to learn, and more and more educators have been using this technique to help young students become successful learners. By combining adult education theory with brain-compatible learning, noted educator Laurie Materna offers practical, brain-friendly instructional approaches for working with adults in both informal and formal environments. This user-friendly guide provides valuable background information about adult learning styles, memory, and how the brain learns. Engaging, interactive strategies for classrooms or workshops include graphic organizers, music energizers, exercise activities, and self-assessments, and each strategy is...

Reviews

It is just one of my personal favorite book. I was able to comprehend every little thing out of this published e publication. It is extremely difficult to leave it before concluding, once you begin to read the book.
