University of Calgary Press. Paperback. Book Condition: new. BRAND NEW, Wolf Mountains: A History of Wolves Along the Great Divide, Karen R. Jones, Situating the wolf in the history of Canadian national parks, Karen Jones considers changing ideas of nature and wilderness and competing visions of the North American West. Wolf Mountains is essentially a work of environmental history, treating the land as an actor in the historical process. This controversial study examines the tumultuous relationship between humans and wolves in four Rocky Mountain parks. By comparing the distinctive lupine histories of specific national parks with anecdotes and narratives of wolves from Aboriginals and early Europeans from the nineteenth and twentieth centuries, important shifts in attitude and policy are clearly shown. Drawing on published scholarly research, archived newspapers, records from environmental groups, U.S. and Canadian park records, first-hand accounts from explorers and trappers, and scientific interviews with park staff and biologists, this book contributes enormously to our understanding of the relationship between wolves and humans.
