The first section of the Act provides for a principal office in the City of San Francisco in which there shall be collected and preserved for study and reference all the geological and mineralogical substances - including mineral waters - found in the State. The same section further provides for a collection of minerals, rocks, and fossils of other States, Territories, and countries, to be at all reasonable hours open for public inspection, examination, and study. Section three provides for a library of works on mineralogy, geology, and mining, a collection of models and drawings of mining and milling machinery used in the reduction of ores, and directs the opening of correspondence to obtain information respecting improvements in mining machinery of practical value to the people of the State. The State Mineralogist is instructed to visit the several mining districts, to ascertain and record their...
