It is one of my personal favorite books. It is one of the most incredible ebooks I have ever read through. You will not feel monotony at any moment of your own time (that's what catalogues are for relating to if you ask me).

This is especially true for the European North, which was and still is as far as we consider the Kola Peninsula for some strategic reasons the most militarised area of the world. This of course had serious influences on the security situation and the security policy of the Western countries. The Northern Countries with Sweden and Finland took the way of neutrality, while Norway and Denmark joined the NATO. Now the old confrontation between West and East disappeared, so that problems relating to this do not exist anymore. But also new problems emerged and some problems only changed their face. This essay gives a brief overview over the security challenges in the European North, it shows some possible reactions to these challenges and tries to value, if the existing Nordic Co-operation can be useful in this. 16 pp. Englisch.
